## 1. Overview of Operating Results and Financial Position

### (1) Overview of Operating Results

During the consolidated accounting period of 2Q, the Japanese economy continued to experience a gradual economic recovery against the background of a pickup in production and capital investment as well as improvement of corporate profits, while stagnation in the recovery of personal consumption and export was observed. Looking ahead, a gradual recovery is expected to continue under an improving employment and income environment, including an expectation for an increase in real wages. On the other hand, the trend of exchange rates and financial markets in response to the election results in Japan and the US, tensions in the Middle East and Ukraine, downward risks in the Chinese and European economies, and other factors demand caution.

Society's demand for Security Services for safety and reassurance is rising amid various developments, placing greater expectation on our Group to provide total services including security. These developments are driven by cyber-attacks on critical public infrastructure and supply chains, concerns about the safety and security of the elderly, women, children and other socially vulnerable groups, increases in violent street crimes and traffic accidents, changes in the security situation brought about by natural disasters such as the January 2024 Noto Peninsula Earthquake, and the aging of public infrastructure. In addition, the number of criminal offenses in 2022 increased year-on-year for the first time since 2002 and is strongly expected to increase further in the subsequent years. Furthermore, the sense of security in Japan has been worsening due to a series of robberies mainly in the Metropolitan Area and crime activities by foreigners. It may be said that the role of the Group in providing safety and security has been increasing.

Under these circumstances, ALSOK Group has continued to provide appropriate services as a business operator that provides services related to social safety and security (Security Service, Facility Management Services etc., Long-term Care Services, and Overseas Services) with the aim to contribute to sustainable societies. As stated in "Grand Design 2025," our Medium-Term Management Plan, we aim to be a safety and Security Service provider who persistently aims to serve the society's various needs for greater safety and security. To meet the expanding safety and security needs of our customers and society amid diversifying risks, we are working to provide new services that combine a variety of service functions, including security, facility management and long-term care.

As a result of these ongoing initiatives, the Group's consolidated results for this consolidated accounting period of 2Q improved with net sales increased 6.9% year on year to 263,280 million yen. However, due to the implementation of wage raise, additional costs related to the end of 3G transmission, increase of allowance for doubtful accounts, and other factors, operating income decreased 12.5% year on year to 15,603 million yen, ordinary income was decreased 12.4% year on year to 16,994 million yen, and net income attributable to owners of the parent decreased 14.9% year on year to 10,091 million yen.

By business segment, the figures achieved are as follows. Please note that, from this consolidated accounting period of 2Q, the reportable segments are modified from traditional "Security Services," "General Property Management and Fire Protection Services," and "Long-Term Care Services" to "Security Services," "Facility Management Services etc.," "Long-Term Care Services" and "Overseas Services." As a result, YoY of each segment is calculated by applying the year on year values to the modified reportable segment classifications.

Sales in the Security Services segment increased 3.1% year on year to ¥190,422 million, while operating income decreased 10.3% year on year to ¥17,224 million.

In the Electronic Security Services, we will promote sales of ALSOK-G7 (G7) as a service for corporate customers, contributing to customer needs to reduce labor costs. It is equipped with live image confirmation as a standard feature and presents a full range of options for image storage and remote access. Its scope of application will be further expanded according to the customer needs in the future. We expanded the service areas of "ALSOK IT Rescue" and "ALSOK Facility Rescue" services to all over Japan. These services utilize ALSOK's existing infrastructure for electronic security. In the event of a failure with IT equipment or a building's facilities, guards will quickly head to the location to investigate causes and take emergency measures with the operational support of specialists. Also, in addition to the Website Tampering Detection and Recovery Service launched in October last year, we provide our existing inspection services for solar panels and expand this business to include inspections and surveys of various facilities using drones.

For HOME ALSOK Services, we experienced a growth in orders due to sales increase of "HOME ALSOK Connect" launched in April last year. These products provide our various customers with safety and security amidst a deteriorating sense of security. In addition to the conventional Online Security Service, in which ALSOK rushes to the scene of an emergency, this product offers a less expensive self-security plan with optional on-site confirmation by ALSOK at the request of the customer. Customers of self-security can upgrade to the Online Security Service at any time. In this May, we launched "Sumaho Gate," a controller for "HOME ALSOK Connect" equipped with a functionality to prevent the smartphone from being lost, which empowers the users to start/stop the security activities with smooth authentication using smartphones. We are also actively promoting sales of HOME ALSOK MIMAMORI SUPPORT, a monitoring service for elderly individuals.

In the areas of Stationed Security Services, we have provided security services at airport facilities that reopened thanks to recovery of inbound demand. We have been responding to security needs thanks to recovery at production sites in Japan and thanks to the full-scale resumption of events inside Japan following the COVID-19 pandemic. For Expo 2025 Osaka, Kansai Japan related business, we won several orders, such as security at pavilions and other buildings, and the entire group will support this business engagement. In addition, we will focus further on manpower-saving and improvements in efficiency of stationed security through digital transformations and the like.

In the Transportation Security Services, while the number of ATMs is declining due to the consolidation and closing of branches of financial institutions, the demand for more efficient cash management operations is still strong and we are expanding sales of ATM general management services and cash deposit and dispenser machine on-line systems. We also offer a series of Tax Payment Receipt Systems, which automate counter services provided at satellite offices of municipal governments by utilizing our cash deposit and dispenser machine on-line systems. We will also promote replacement, etc. of equipment for new banknotes issued in this July. We will continue to gain an understanding of various outsourcing needs such as improving operational efficiency and reducing costs at regional financial institutions and expand our service offerings.

Net sales in the Facility Management Services segment increased 0.6% year on year to ¥33,282 million while operating income decreased 2.8% year on year to ¥2,794 million. We will continue working to expand our facility management operations while also selling, installing, and providing maintenance for EV charging facilities as part of our work to strengthen our efforts at sustainability.

In the long-term care service business, net sales increased 5.0% year on year to ¥26,457 million due to the increase in occupancy rate at facilities, etc., Moreover, operating income increased 19.3% year on year to ¥826 million. In addition, the Research Institute of Scientific Nursing Care Inc., a joint venture between the Company, the Institute of Science Tokyo (former Tokyo Medical and Dental University), and NJI Co., Ltd. which develops technologies and human resources for the fields of nursing and caregiving, has launched on September 26, 2024. We will continue to develop and improve the efficiency of our long-term care service operations through the use of robots and DX to support long-term care and work while working to expand services under the unified “ALSOK’s Care” Long-Term Care Services brand.

Sales in the Overseas Services segment increased 286.6% year on year to ¥13,119 million, thanks to the M&A effects, while operating loss was ¥373 million (¥318 million operating loss year on year). Based on the expertise we have cultivated in Japan, we will continue to offer products and services optimized for individual countries, and we will aggressively expand our operations to support the Overseas Services of our customers.

The Group will continue to aptly meet the expanding safety and security needs of society by continuing to utilize new technologies and improve productivity, while fulfilling our responsibilities as a provider of services related to the safety and security of society.

## (2) Overview of Financial Position

With regards to the total assets as of the end of the consolidated accounting period of 2Q, there was a decrease of ¥1,955 million year on year, to a total of ¥565,605 million. This is a result of the following factors: cash for Transportation Security Services increased by ¥13,050 million while cash and deposits decreased by ¥8,592 million and notes receivable, accounts receivable, and contract assets decreased by ¥8,354 million.

Total liabilities increased by ¥8,978 million year on year to ¥189,958 million. This is a combined result of the following factors: short-term loans payable increased ¥18,360 million, while notes and accounts payable-trade decreased ¥7,562 million.

The status of cash flows is as follows.

### (Net cash provided by (used in) operating activities)

During this consolidated accounting period of 2Q, net cash provided by operating activities amounted to ¥19,814 million, 43.0% less year on year. This is a combined result of the following factors: an increase of ¥17,149 million due to income before income taxes, an increase of ¥9,936 million internal reserves due to depreciation and amortization, and an increase of ¥9,011 million due to decrease in notes and accounts receivable, as well as a decrease of ¥10,914 million due to the decrease in notes and accounts payable and a decrease of ¥5,257 million due to corporate income and other related payments.

The decrease(increase) in assets and liabilities for Transportation Security Services reflects changes in the amounts of funds procured for Transportation Security Services, which are part of “the cash and short-term loans payable for Transportation Security Services”.

(Net cash provided by (used in) investing activities)

Net cash used in investing activities during this consolidated accounting period of 2Q totaled ¥4,464 million, down 39.3% year on year. This is a result of an increase of ¥4,588 due to the consolidation of a new subsidiary company combined with a decrease of ¥7,273 million due to the acquisition of properties, plants and equipment.

(Net cash provided by (used in) financing activities)

During this consolidated accounting period of 2Q net cash provided by financing activities amounted to ¥25,345 million, up 95.5% year on year. This is a combined result of the following factors: a decrease of ¥15,000 million due to purchase of treasury shares, a decrease of ¥7,511 million due to cash dividends paid, and a decrease of ¥3,000 million due to repayment of lease obligations.

(3) Explanation of Future Forecasts such as Forecasted Consolidated Financial Results

With regards to the forecasted consolidated financial results of the fiscal year ending March 2025, there have not been any changes from the forecasts published on May 14, 2024.

(4) Notes on the Preparation of Consolidated Financial Results

(Changes in accounting policies)

(Application of “Accounting Standard for Current Income Taxes” and other standards)

ASBJ Statement No. 27, October 28, 2022, “Accounting Standard for Current Income Taxes.” Hereinafter, “Revised Accounting Standards 2022.”) and other standards have been applied since the beginning of the consolidated accounting period of 2Q.

For revisions related to calculation classification of income taxes (taxes for other comprehensive income), items are treated according to the transitional treatment stipulated in the proviso of Paragraph 20-3 in Revised Accounting Standards 2022 and the transitional treatment stipulated in the proviso of Paragraph 65-2 (2) in “Implementation Guidance on Tax Effect Accounting” (ASBJ Guidance No. 28, October 28, 2022. Hereinafter, “Revised Implementation Guidance 2022.”) There is no effect due to this on the consolidated financial statements.

For revisions related to the review of the treatment of the consolidated financial statements to hold over the loss (gain) on sales of subsidiary shares between consolidated companies from a taxation point of view, Revised Implementation Guidance 2022 has been applied since the beginning of the consolidated accounting period of 2Q. These changes in accounting policies will be retroactively applied, and are applied to the consolidated financial statements and consolidated financial statements in the quarters in the previous year and the previous consolidated fiscal year. There is no effect due to this on the consolidated financial statements or consolidated financial statements of the previous consolidated fiscal year.
